

ANNUAL REPORT

PREPARED BY

The LA Recovery Connect Team

LETTER FROM THE PRESIDENT

Dear Friends,

As you may have heard us say, recovery is an inside job, and we thank you from the bottom of our hearts for your outside love. Our recovery community organization works because you show up with us.

LA Recovery Connect (LARC) was established in April 2021. Leading with connection, we work hard to bring much needed peer support services and programs to the South LA area. In our first year, we jumped right in and started hosting All Recovery Meetings and Open Spaces Hikes for our community, free of charge. We also prepared for the opening of the LARC House, a recovery residence for two women, which is set to be completed in August of 2022.

Our goal to provide people in recovery a safe, affordable, supportive recovery residence is on the cusp of being realized and we are only one year into our efforts. With this solid ground being built, we have set up ourselves and our participants for continued community, health & wellness, and organizational growth in the fiscal year to come.

This report provides an overview of what the LARC Community accomplished in our 2021-2022 Fiscal Year and I hope that as you read it, you are as proud as I am of all that we accomplished.

With love,

Thea Golden
President

MISSION/HISTORY/BOARD

Mission: To cultivate connection, foster education, and support recovery from alcohol & substance use while providing wellness, health, and recovery resources.

History: We are a budding peer-to-peer recovery community in South LA. With connection as our driving force, we are working to share recovery resources, build recovery capital, and promote recovery. The journey to create LA Recovery Connect (LARC) began in 2005 when our founder, Thea Golden, was thrust into the recovery world via a documentary she produced. After years of traveling the US and learning from some of the largest and longest running recovery community organizations in the country, LARC came to be. Long term, we are working to create a continuum of care for people in recovery. Join us as we build a recovery community to support individuals & families struggling with alcohol & substance use disorder.
